

# TaskMe

Your personal phone call screener and manager. Don't waste your time with phone calls that aren't important at the moment.

Make sure not to miss that important call even if your phone is in silent mode.

## What can TaskMe Do?

### Listen For Events

Events can be anything from:  
Specific Dates  
Incoming Calls  
Active Call  
Missed Calls  
Camera Open  
Playing Media  
and more...

### Edit Tasks After Creating Them

TaskMe allows user to edit their tasks after they've been created. This allows a user to reuse tasks instead of recreating them.

TaskMe allows users to turn off tasks whenever they want and when the user is ready they can turn it back on again.

### Take Action

Actions can be things like:  
Ignore Call  
IPlay Ringtone  
Send Message

### Who is TaskMe for?

TaskMe was designed to work for anyone who wants their phone calls to be managed for them. It doesn't matter if you're a teacher, student, business man/woman, or you're just curious to see what the fuss is about. There was no specific audience in mind so all can benefit from it.
